

MERRY FISHER

1295 FLY

THE NEW STANDARD OF COMMANDING LUXURY

Launched in 2023, this Jeanneau Merry Fisher 1295 Fly stands as the definitive flagship of the fleet. Measuring over 40 feet, she combines the soul of a high-performance cruiser with the sophisticated amenities of a luxury motor yacht. Her striking profile is defined by extensive glazing and a grand flybridge, offering unparalleled views and a commanding presence on the water.

The interior is a masterclass in modern volume, featuring three dedicated cabins and a refined saloon bathed in 360-degree natural light. A standout feature is the starboard electric-controlled balcony, which creates an "infinity terrace" over the water, expanding the cockpit into a massive social platform. Powered by a triple outboard configuration, she delivers exhilarating speed and precision handling, all while maintaining the quiet comfort expected of a 2023 build.

Impeccably maintained and featuring cutting-edge Garmin electronics and premium finishes, she is a turn-key opportunity for the discerning owner.
